Six-lane freeway connecting I-35 with Dallas North Tollway

Public Scoping Meetings to be held October 29-30

Denton County in partnership with the Texas Department of Transportation (TxDOT) is initiating an Environmental Impact Statement (EIS) to construct a six-lane freeway primarily on new location connecting I-35 in Denton County, Texas with the Dallas North Tollway in Collin County, Texas.

REGIONAL OUTER LOOP IN DENTON COUNTY

DENTON COUNTY OUTER LOOP

PUBLIC SCOPING MEETINGS

YOU'RE INVITED!

Denton County is hosting a series of in-person and virtual public scoping meetings to share information about the environmental review process and alternatives under consideration and gather feedback from the public. Materials presented will be the same at each public scoping meeting. One of the proposed paths could be connecting to I-35 from Milam Road, just south of Sanger.

off in late 2022 and is expected to be complete by Fall 2026. In early 2024, Denton County and TxDOT completed the Denton County Outer Loop Feasibility Study and transitioned into the EIS phase. This phase of the project is a more in-depth study than what was previously done and will build on information collected during the Feasibility Study in accordance with the National Environmental Policy Act (NEPA) process.

tives will be evaluated in consideration of input received from Federal, State, and local agencies as well as stakeholder groups and the public.

The draft Purpose and Need, exhibits illustrating the range of reasonable build alternatives, draft alternatives matrix indicating the methodology and level of detail for screening of the range of alternatives, and the draft coordination plan and public involvement plan including the anticipated schedule will be available on the public scoping meeting webpage at www.DentonCountyOuterLoop.com.

The in-person public scoping meetings will follow an open house format where the public may come and go at their convenience. Staff will be available to answer questions and take comments. The virtual public scoping

An EIS is prepared when it is anticipated that a proposed project could significantly affect the quality of the human and natural environment. There are three categories of analysis that TxDOT can complete as a part of

The purpose of the proposed action is to address population and travel demand growth and support safe and resilient east-west mobility and connectivity across Denton County. The need for the proposed action is driven by (a) rapid population growth and increasing traffic volumes that are contributing to congestion, (b) higher crash rates along Study Area roadways compared to the statewide average, and (c) limited mobility due to the lack of contiguous east-west arterials.

Ultimately, this study will allow Denton County to preserve the land needed for the corridor to protect it from future development. Transportation projects require years of advanced planning and development, which is why the county must plan now for the growth it expects in the next 30 years.

Public Comments Requested
Written comments from the public regarding the proposed project are requested and may be submitted beginning Tuesday,

On November 29, 1957, she married the love of her life, Samuel Loyd Tipton, in Wichita Falls, Texas. They lacked one month of being married for 63 years when Sam passed from this earth.

Building the Future: Beam Signing Ceremony at Sanger High School!

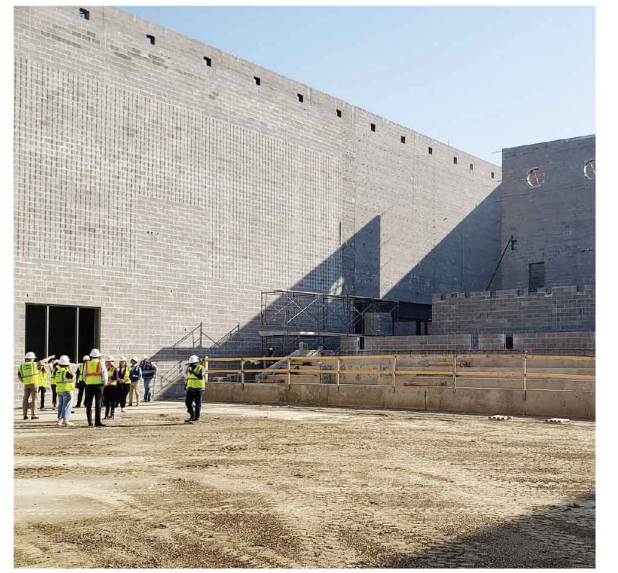

Last week was a monumental moment for the future of Sanger ISD. The Sanger High School current Junior class, who will be the first to graduate from the new high school next school year, proudly participated in the beam signing! This beam, set to be placed in the new high school, symbolizes the lasting legacy these students will leave behind. The Bond Committee, Sanger ISD Board of Trustees, and Administration also signed the beam, marking their place in Sanger ISD history. A special thank you to Pogue Construction and VLK Architects for sponsoring this event and their continued support in building a bright future for the students.

Dear Friends,

Lately, we have had several complaints that the rules and regulations the Sanger Cemetery Association has set forth are not being followed. These complaints are not regarding the cemetery's upkeep but the objects placed at the gravesites. Each spring, we send letters notifying you when Decoration Day will be held. In that letter, the rules and regulations of the cemetery are displayed with the heading, **"PLEASE READ CAREFULLY."** This list is also included in the deed you received when you purchased your spaces, a sign just inside the cemetery gate, and displayed at the bottom of this letter. There is no excuse for the blatant disregard of these rules. The previous caretaker had been permitted to remove objects that obstructed his mowing and other duties, which aggravated those leaving these objects, compounding the problem further.

Decorative items may not be secured or adhered to monuments at any time; such items will be removed by the caretaker or a member of the Board. Floral saddles, wreath holders, and vases matching the material of the monuments are acceptable.

Effective immediately, the Board of Directors is asking for you to remove **ALL** objects from the gravesites that do not permanently mark the identity of that grave or that have not been previously approved by the Board of Directors. These objects include but are not limited to all trinkets, marbles, breakable objects of any nature, arches (wood, metal, or pipe), shepherd's hooks, benches (unless it is the actual monument with the name engraved on it. At which point, the material must be of granite or bronze), vigil lights, chimes, flower pots, trees or shrubs or any statue that is not a part of the monument. Most importantly, no open-flame candles are permitted. These are not an option! We have noticed some burnt grass from candles. Two families sought and were granted permission from the previous Board years ago to place a bench in their spaces in the cemetery. One family has taken their benches down; the other will remain until it becomes a hazard.

You will have until November 15, 2024, to remove said items. If you choose not to remove items by this date, the Board of Directors will have them removed and placed in a designated dumpster at the cemetery's North end, where they will remain for another two weeks. Once items are in the dumpster, we cannot guarantee that you will receive them back. After this clean-up, items placed around the gravesites will be removed without notification.

Floral arrangements accompanying the casket or urn at the time of burial will be placed on the completed grave. If you place flowers at the gravesite and bring new flowers, please remove the old ones. Flowers should be placed either in the vases on your monument or in a saddle placed directly on the top. If there are no vases on the memorial, flowers may be placed in a temporary vase on the ground directly in front of the monument. If the flowers become faded or unsightly, they may be removed before you have a chance to replace them. Please do not line the perimeter of the grave with anything, as this obstructs the mowing. The caretaker has the right to remove items without notification.

All graves must be marked with a monument constructed of granite or bronze. Each monument must sit on an exposed concrete base four inches thick and a 3" apron in circumference. You may not fabricate these memorials of metal, and the Board must approve all monuments. Before a monument is placed, the company or person setting it must contact Coker Funeral Home at (940) 458-3311 to ensure its placement in the proper space.

Additionally, we have received significant complaints that some groups are hanging out, drinking beer, and leaving full or empty beer bottles to surround the grave. The cemetery is not the place for that behavior, nor will it be tolerated.

Please note that Coker Funeral Home does not own this cemetery or receive monetary compensation. They merely volunteer as the liaison for the Sanger Cemetery Association.

PLEASE READ CAREFULLY

We appreciate your continued cooperation in upholding the cemetery's conditions and regulations, which are listed below. Your cooperation aids in reducing the amount of maintenance required by the caretaker and allows him to keep the grounds in better condition.

Conditions and Regulations of the Sanger Cemetery

1. The tract conveyed shall be for the burial of the human dead and no other use.
2. The tract conveyed shall not be curbed or enclosed in any manner. Any existing curb that has deteriorated or is damaged cannot be repaired and should be removed. The cemetery board has the authority to remove any such curbing.
3. No glass containers shall be left within the boundaries of the cemetery.
4. No trees, shrubs, ornamental statuary, or other items that would be an obstruction to mowing shall be established on any tracts.
5. The use of the tract conveyed shall be subject to the rules and regulations of the Sanger Cemetery Association, as they presently stand or are later amended.
6. The association requires that a permanent marker be placed on the grave as soon as possible after burial. These memorials should only be made of granite or bronze and must sit on an exposed concrete pad four inches thick with a three-inch apron. The association must be notified **BEFORE** such memorials are set. Please contact (940) 458-3311 for the requirements of placing a monument in the cemetery.

We have a beautiful cemetery, and the upkeep is costly. The congestion of the items in the cemetery keeps the caretakers from doing their job effectively, making our cemetery look unkept and dirty. We need to return it to a place of quiet rest for family and friends to visit and reflect on the memories of their loved ones. This reflection cannot happen with clutter lying around. We would appreciate your help in abiding by the rules set forth to make this such a place. The gates will open at 7 am and close at dusk (basically, sunrise to sunset) to deter vandalism in the cemetery.

Best Regards,

Sammy Rippey President
Sanger Cemetery Association

Indians varsity football travels to Krum

Sanger fought the good fight in their overtime game against Van Alstyne last Friday but wound up with a less-than-desirable result. They and the Van Alstyne Panthers were almost perfectly matched up, but they suffered a 42-41 defeat. Sanger had a two touchdown lead in the fourth quarter, but the Panthers came back from a 35-21 deficit to tie the game with 1:04 left in the game. In overtime, Sanger scored first, but missed the extra point and the Panthers only took one play (quarterback keeper) to score with the conversion won the game.

Despite the loss, Sanger still got an impressive performance from Reginald Jones, who rushed for 145 yards and four touchdowns. Jones really tore up the turf during one magnificent 78-yard run. Austin Martin had a rushing touchdown and Luke Thompson carried the ball 16 times for 78 yards. Martin caught 7 passes for 32 yards; Dylan Brown (2-38); Jackson Gregory (1-15); Daylen Richardson (1-10); and Wyatt Pennington (5-25). Sanger quarterback Reed Sebastian was 16-29-120 yards with one touchdown and one interception.

Sanger didn't go easy on the quarterback and picked off two passes before the game was over. The picks came courtesy of Luke Hendricks and Max Taylor. Taylor also set a new season high mark in total tackles with 16. Another thorn in Van Alstyne's side was JJ Mikas, who picked up two sacks and made seven total tackles. See

defensive leaders below:

Sanger's loss dropped their record down to 2-5. As for Van Alstyne, the victory got them back to even at 3-3. Sanger (2-5, 1-2) will take on Krum at 7:00 p.m. on Friday. Sanger needs to win to stay in the playoff hunt. Krum (5-1, 1-1) lost to Van Alstyne two weeks ago 47-33. The Bobcats had a bye last week and have had two weeks to prepare for the Indians.

Max Taylor (25) had 16 Tackles, 1 Interception and 1 QB Sack against Van Alstyne.

IT'S TIME TO PLAN TODAY FOR FUTURE GROWTH

To address increasing growth in the region, Denton County, in partnership with the Texas Department of Transportation (TxDOT), is initiating an Environmental Impact Statement (EIS) to construct a six-lane freeway primarily on new location connecting I-35 in Denton County to the Dallas North Tollway in Collin County.

In this EIS, Denton County and TxDOT will evaluate four build alternatives on a new location six-lane freeway in addition to the No-Build Alternative, that satisfy the purpose and need within the study area. Alternatives will be evaluated in consideration of input received from Federal, State, and local agencies as well as stakeholder groups and the public.
